

BOTANICAL LIST (Non-Bulbous)

NOTE

The inclusion of a genus in this list does not mean that all members of that genus will be suitable for exhibition. Some will be rendered inadmissible on the grounds of size or lack of hardiness, according to Rule 14 which states:

Definitions: "Alpine or rock garden plant": The term covers all plants, including shrubs, suitable for cultivation in a rock garden of moderate size or in an unheated frame or alpine house. **It excludes any plants which will not survive an average British winter under such conditions** but includes many plants which do not necessarily grow in mountainous regions.

Apiaceae (was **Umbelliferae**): Astrantia, Azorella, Bolax, Hacquetia, etc.

Asparagaceae: Arthropodium, Clintonia, Disporum, Disporopsis, Hosta, Maianthemum, Ophiopogon, Polygonatum, Speirantha, Tricyrtis, Uvularia etc

Berberidaceae: Berberis, Bongardia, Dysosma, Epimedium, Gymnospermium, Jeffersonia, Mahonia, Podophyllum, Ranzania, Sinopodophyllum, Vancouveria, etc.

Boraginaceae: Anchusa, Eritrichium, Hesperochiron, Lithodora, Mertensia, Moltkia, Myosotis, Omphalodes, Onosma, Phacelia, Pulmonaria, Romanzoffia, etc

Brassicaceae: Aethionema, Alyssum, Arabis, Aubrieta, Cardamine, Chorispura, Clausia, Degenia, Draba, Erysimum, Fibigia, Iberis, Matthiola, Morisia, Notothlaspi, Petrocallis, Thlaspi, etc

Cactaceae: Echinocereus, Lobivia, Maihuenia, Mammillaria, Opuntia, Pediocactus, Rebutia, Sclerocactus, etc

Calceolariaceae: Calceolaria

Campanulaceae: Adenophora, Campanula, Codonopsis, Cyananthus, Diosphaera, Edraianthus, Hypsela, Isotoma, Lobelia, Physoplexis, Platycodon, Pratia, Trachelium, Wahlenbergia, etc.

Caryophyllaceae: Arenaria, Cerastium, Dianthus, Gypsophila, Lychnis, Minuartia, Petrorhagia (was Tunica), Saponaria, Silene, Vaccaria (was Melandrium) etc.

Celastraceae: Parnassia

Commelinaceae: Weldenia.

Compositae (was **Asteraceae**): Achillea, Anacyclus, Antennaria, Anthemis, Artemisia, Aster, Brachyclados, Brachyglottis, Carduncellus, Celmisia, Chaenactis, Cotula, Cremanthodium, Crepis, Erigeron, Eurypops, Haastia, Helichrysum, Hippolytia, Hulsea, Hymenoxys, Inula, Leontopodium, Leptinella, Leucogenes, Ozothamnus, Pyrethrum, Raoulia, Rhodanthemum, Richieria, Santolina, Serratula, Solidago Tanacetum, Tetraneuris, Tonestus, Waldheimia, etc

Coniferae: now consists of **Cupressaceae**, **Pinaceae**, and **Taxaceae**. The term **conifer** includes these:

Cupressaceae: Chamaecyparis, Cupressus, Juniperus, Thuja.

Pinaceae: Abies, Cedrus, Larix, Picea, Pinus, Tsuga.

Taxaceae: Taxus

Crassulaceae: Chiastophyllum, Cotyledon, Crassula, Dudleya, Jovibarba, Orostachys, Rhodiola, Rosularia, Sedum, Sempervivum, Umbilicus, etc

Diapensiaceae: Berneuxia, Diapensia, Galax, Shortia (incl. Schizocodon), etc.

Ericaceae: Andromeda, Arctostaphylos, Bryanthus, Calluna, Cassiope, Chimaphila, Cyathodes, Epacris, Epigaea, Erica, Gaultheria (incl. Pernettya), Kalmia, Leiophyllum, Leucopogon, Loiseleuria, Moneses, Pieris (incl. Arctericia), Pentachondra, Phyllodoce, Pyrola, Rhododendron (incl. Ledum), Rhodothamnus, Trochocarpa, Vaccinium, etc.

Ferns include all of these:

Adiantaceae: Adiantum, Cheilanthes, Cryptogramma, Notholaena, Onychium, Pellaea, Pityrogramma

Aspleniaceae: Asplenium, Ceterach

Blechnaceae: Blechnum

Dryopteridaceae: Dryopteris, Filix

Ophioglossaceae: Botrychium, Ophioglossum

Polypodiaceae: Lemnaphyllum, Lepisorus, Microgramma, Neolepisorus, Polypodium, Pyrrosia

Pteridaceae: Acrostichum, Pteris

Woodsiaceae: Athyrium, Cystopteris, Gymnocarpium, Matteuccia, Onoclea, Woodsia

Fumariaceae: now included in **Papaveraceae**.

Gentianaceae: Centaurium, Gentiana, Swertia, etc.

Geraniaceae: Erodium, Geranium, Hypseocharis, Pelargonium, etc.

Gesneriaceae: Asteranthera, Briggsia, Chirita, Conandron, Corallodiscus, Haberlea, Jankaea, Lysionotus, Opithandra, Petrocosmea, Ramonda, Sarmienta, Streptocarpus, etc

Hydrangeaceae: Deinanthe, Deutzia, Kirengeshoma.

Lamiaceae (was Labiatae): Acinos, Ajuga, Clinopodium, Calamintha, Dracocephalum, Horminum, Lavandula, Mentha, Micromeria, Origanum, Prunella, Salvia, Satureia, Scutellaria, Stachys, Teucrium, Thymus, etc.

Leguminosae (was Papilionaceae): Anarthrophyllum, Anthyllis, Astragalus, Cytisus, Erinacea, Genista, Lathyrus, Lupinus, Ononis, Oxytropis, Parochetus, Thermopsis, etc

Liliaceae: Prosartes, Scilopus etc

Lobeliaceae: now included in **Campanulaceae**.

Melanthiaceae: Heloniopsis, Ypsilandra, etc

Montiaceae: Claytonia, Lewisia

Onagraceae: Chamerion, Epilobium, Fuchsia, Oenothera, Zauschneria, etc.

Orchidaceae: Anacamptis, Bletilla, Calanthe, Cephalanthera, Corybas, Cypripedium, Dactylorhiza, Epipactis, Galearis, Goodyera, Gymnadenia, Neotinia, Neottia, Habenaria, Listera, Ophrys, Orchis, Pleione, Pterostylis, Serapias, Spiranthes, Thelymitra, Traunsteinera, etc

Orobanchaceae: Castilleja, Euphrasia, Pedicularis

Oxalidaceae: Oxalis

Paeonaceae: Paeonia

Papaveraceae: Chelidonium, Corydalis, Dicentra, Eomecon, Hylomecon, Meconopsis, Papaver, Pteridophyllum, Sanguinaria, Stylophorum, etc.

Phrymaceae: Lancea, Mazus, Mimulus, etc

Plantaginaceae: Antirrhinum, Asarina, Cymbalaria, Digitalis, Erinus, Globularia, Hebe, Lagotis, Linaria, Melosperma, Ourisia, Paederota, Parahebe, Penstemon, Plantago, Rehmannia, Synthyris, Veronica, Wulfenia etc.

Plumbaginaceae: Acantholimon, Armeria, Bukiniczia, Ceratostigma, Dictyolimon, Limonium

Poaceae: Festuca, Hakonechloa, Hordeum

Polemoniaceae: Collomia, Gilia, Leptodactylon, Phlox, Polemonium

Polygalaceae: Polygala

Polygonaceae: Eriogonum, Persicaria, Polygonum, etc.

Portulacaceae: Calandrinia

Primulaceae: Anagallis, Androsace, Coris, Cortusa, Cyclamen, Dionysia, Dodecatheon, Lysimachia, Omphalogramma, Primula, Samolus, Soldanella, Trientalis, etc

Ranunculaceae: Adonis, Anemone, Anemonella, Aquilegia, Beesia, Callianthemum, Clematis, Delphinium, Eranthis, Glaucidium, Helleborus, Hepatica, Oxygraphis, Paraquilegia, Pulsatilla, Ranunculus, Semiaquilegia, Thalictrum, Trollius, etc

Rosaceae: Alchemilla, Dryas, Fragaria, Geum, Kelseya, Potentilla, Rosa, Rubus, Sorbus, Spiraea, etc.

Rubiaceae: Asperula, Coprosma, Houstonia, Mitchella, Nertera, Phuopsis, etc.

Saxifragaceae: Astilbe, Bergenia, Boykinia, Chrysosplenium, Elmera, Heuchera, Micranthes, Mitella, Mukdenia, Oresitrophe, Peltoboykinia, Saxifraga, Tanakaea, Tellima, Tiarella, etc

Scrophulariaceae: Aptosimum, Diascia, Verbascum, Zaluzianskya, etc

Talinaceae: Talinum

Thymelaeaceae: Daphne, Pimelea, Stelleria, etc.

If there is doubt as to whether a plant belongs to one of the above families, enquiry should be made to the Show Secretary or to the Director of Shows or his representative.

BOTANICAL LIST (Bulbous)

NOTE

The inclusion of a genus in this list does not mean that all members of that genus will be suitable for exhibition. Some will be rendered inadmissible on the grounds of size or lack of hardiness, according to Rule 14 which states:

Definitions: "Alpine or rock garden plant": *The term covers all plants, including shrubs, suitable for cultivation in a rock garden of moderate size or in an unheated frame or alpine house. It excludes any plants which will not survive an average British winter under such conditions but includes many plants which do not necessarily grow in mountainous regions.*

Amaryllidaceae: Acis, Agapanthus, Allium, Cyrtanthus, Galanthus, Gethyllis, Gilliesia, Habranthus, Leucocoryne, Leucojum, Narcissus, Nerine, Nothoscordum, Pancratium, Rhodophiala, Sternbergia, Strumaría, Tristagma, Tulbaghia, Zephyranthes

Araceae: Arisaema, Arisarum, Arum, Biarum, Eminium, Pinellia.

Asparagaceae: Albuca, Bellevalia, Bessera, Bloomeria, Brimeura, Brodiaea, Camassia, Daubenyia, Dichelostemma, Dipcadi, Eucomis, Fessia, Hyacinthella, Hyacinthoides, Hyacinthus, Lachenalia, Lapiedra, Ledebouria, Leopoldia, Massonia, Muilla, Muscari, Ornithogalum, Prospero, Pseudomuscari, Puschkinia, Scilla, Triteleia,

Colchicaceae: Androcymbium, Colchicum, Merendera

Hypoxidaceae: Empodium, Hypoxis, Rhodohypoxis, Saniella.

Iridaceae: Alophia, Babiana, Crocus, Cypella, Freesia, Geissorhiza, Gladiolus, Herbertia, Hesperantha, Iris, Lapeirousia, Moraea, Olsynium, Romulea, Sisyrinchium, Syringodea, Tritonia.

Ixioliriaceae: Ixiolirion.

Liliaceae: Calochortus, Erythronium, Fritillaria, Gagea, Lilium, Lloydia, Nomocharis, Notholirion, Tulipa, Zigadenus.

Melanthiaceae: Paris, Trillium.

Tecophilaeaceae: Conanthera, Odontostomum, Tecophilaea

Zingiberaceae: Roscoea

If there is doubt as to whether a plant belongs to one of the above families, enquiry should be made to the Show Secretary or to the Director of Shows or his representative.
