**Merit Medals:** open to all members.

**Plants Section:** A bronze medal will be awarded to every exhibitor as soon as their total of First Prizes at the Society's Shows reaches 10; a silver medal will follow when the total amounts to 25 (of which 15 must have been won in the Intermediate Section or in the Open Section), and a gold medal when the figure of 50 (of which 25 must have been won in the Open Section) is reached. No member may receive more than one medal of each type.

**Artistic Section:** Exhibitors will qualify for the Artistic Merit Medal as follows: 10 first prizes for the Bronze. 25 first prizes for the Silver and 50 first prizes for the Gold (25 of which must have been won in the Open Section).

**Bar to Silver Merit Medal.** Where an exhibitor who has not yet won a Gold Medal chooses to continue exhibiting in the Intermediate Section (plants or Artistic) and wins a further 25 First Prizes in the Intermediate Section, the fact will be recorded in the Shows Handbook as a Silver Bar. Further bars **up to a maximum of 5** will be recorded as the totals accrue. Once an exhibitor has achieved **5 Silver bars**, he/she ceases to qualify for entry into the Intermediate section **with immediate effect**. The shows record keeper will ensure the exhibitor is alerted to this.

**AGS Special Award.** This consists of a Large Gold, Gold, Silver or Bronze Award Card. These may be given at the discretion of the judges, to non-competitive exhibits staged at the Society's Shows.

Non-competitive exhibits may be displayed at more than one show during a season, however any display of artwork (unless very substantially altered with new, hitherto unseen paintings, photographs, embroidery, or needlecraft) will be judged only on its first appearance. The resulting award card will then be displayed on any subsequent occasions. Displays must consist of material related to alpinism. Where a display includes plants, these may be in pots or planted out in a small rock garden. Only plants as defined in Note 14 will be considered in making the Award.

The Judges should consider the quality and botanical and/or educational interest of the exhibit, the size and artistry, and to a somewhat lesser extent, rarity. In making their recommendations Judges will have regard to the quality of the plants shown and to the attractive arrangement of the exhibit, and to a somewhat lesser extent, to variety and rarity. **Emphasis when judging these exhibits will be on their informative/educational content.**

**In order that the exceptionally high standard required for these awards be uniform throughout the Shows it is necessary that the Director of Shows or his representative should be consulted before the awards are finalised.**
