Instructions for seed donors

PLEASE READ ALL INSTRUCTIONS CAREFULLY

Please pull out these centre pages in full (do not tear at the centre). Complete the form in block capitals and include this form with your seed. A copy of the form is also available on the AGS website.

Make sure the seed is clean and free from chaff, grit, etc. Do not use very large or very small packets as they are difficult to manage and increase the work load of the seed handling team. Seal the packets well and ensure they are leak-proof. Mark each packet clearly with the full name of the seed, your name and the packet number as listed on your donor form. If you do not know the full name of a plant, **please** include information about height, colour, etc. Donations of small bulbs, corms etc are very acceptable.

New regulations now state that all seed donations from outside the UK must be accompanied by a Phytosanitary Certificate. Overseas donors may wish to group together to share any cost involved. We are trying to find a better solution to this ongoing problem.

To qualify for Donor status, you must send in a minimum donation of 7 different varieties of seed, preferably suitable for a rock garden. Family members requiring two orders with Donor status must send in a minimum of 14 different varieties. Please send in your seed to arrive before 10th October 2022, together with your Seed Donor's form, to the address below which corresponds to your surname.

Late donations: If you think your seed may arrive after the closing date of 10th October, you **must** contact Diane Clement by email for alternative posting arrangements. Please **do not** post to the seed receiver listed below after 10th October. We will not be posting out seed lists this year, except by request.

Please contact Diane Clement or the AGS before 1st November 2022 if you would like a seed list posted to you.
